We pride ourselves on the availability of high quality beverage products we serve at every function. Our ability to source any requested product and the affordable pricing give us a distinct advantage over the higher priced function venues.

We have a large range of tap or sealed beers available and a wine list that is modern and varied covering all tastes whether sweet or dry on the palate.

Pricing can be "set price" per head calculated on the choice of the product selected or a budget style drink list that is set by the bar tab requested by the function holder.

Our professional staff indicate during the function the amount used on an hourly basis so to give the holder of the function the availability to spread the requested bar tab wisely to cover the evenings procedure.

Our wine, beer and soft drink menu can be formulated to your liking with top quality products that will suit everyone at your function. Likewise, if alcohol is not required at your function, a beverage menu can be put together to suit the nature of the function.
